

# WaBo® F3B System

FAT & BONE BUCKET BODY

Available for single and tandem axle trucks, as well as semi-trailer. We will build a Bucket System to fit your needs.

## Standard Features:

- Strong, lightweight, corrugated sides or available with smooth inside walls
- 45° floor corners, for structural rigidity and easy clean out
- WaBo® Designed cylinder guides to allow more leverage and industry leading forward dump position
- Greater bucket tilt angle allows dumping at extreme rear of body
- Rugged stepped trailer frames to maintain a low center of gravity
- All critical components welded with pulse wire technology for a long, low maintenance life
- Dupont™ Imron® Polyurethane Paint
- Seamless hydraulic tubing with flared ends
- Black epoxy frame paint

## Available Options:

- Back up camera with available navigation system
- 409 stainless steel bulk compartment for a long corrosion-free life without the fatigue problems of 304 stainless steel or aluminum
- WaBo® side mount or multiple barrel washer
- Full height sealed tailgate (standard on trailers)
- Bucket designed for your specific application
- Radio control hydraulic valves
- Load divider gate
- Telescopic hoist
- Tarp systems

Custom Bucket Option

Optional Radio Control
